

SAGE Summative Accommodations

Large Print Accommodation

This should be available in the training test and the Live test.

To make this available to the student:

1. In TIDE, go to “Student Information” and enter the ID for the student in need. Under “Test Settings”, change the print size (from 1.5 to 3 times); under “Accommodations”, change the setting from “None” to “Stimuli & Items”. Save the changes.
2. The student must use the Secure Browser for both the live test and training test to access these accommodations.
3. The test administrator will open a test session and provide the ID to the student.
4. The student should be able to access large print and print to paper.

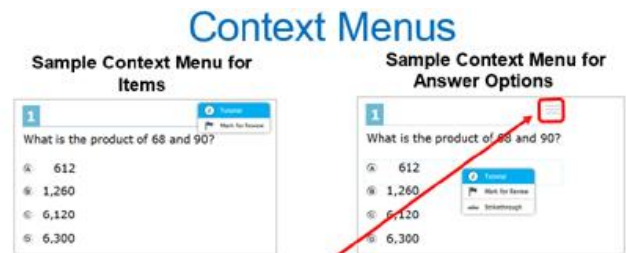

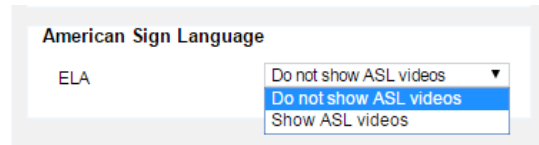

American Sign Language Accommodation

This should be available in the training test and Live test.

To make this available to the student:

1. In TIDE, go to “Student Information” and enter the ID for the student in need. Under “Accommodations”, change the setting from “Do not show ASL videos” to “Show ASL video”. Save the changes.
2. The student must use the Secure Browser for both the live test and training test to access these accommodations.
3. The test administrator will open a test session and provide the ID to the student.
4. To access the ASL videos the student must use the “Context Menus” and right click or left click the 3 small gray lines.
5. The student should be able to access ASL Videos.

- Two ways to access the Context Menus:
- Right-click with the mouse
 - Click on the menu icon
